Correction to: Effect of action-based cognitive remediation on cognition and neural activity in bipolar disorder: study protocol for a randomized controlled trial

Caroline V. Ott^{1,2}, Maj Vinberg¹, Christopher R. Bowie³, Ellen Margrethe Christensen¹, Gitte M. Knudsen^{4,5}, Lars V. Kessing^{1,5} and Kamilla W. Miskowiak^{1,2*}

Correction to: *Trials* (2018) 19:487

<https://doi.org/10.1186/s13063-018-2860-8>

Following publication of the original article [1], the authors notified us that a comment in the **Peripheral and neural biomarkers and genotype section** was incorrectly phrased during editing. “4 weeks of treatment (four active ABCR sessions twice a week or control group sessions twice a week)” should have actually been described as “two weeks of treatment (4 active, twice a week, ABCR sessions or 2 weekly control group sessions)”.
